

# Safety Data Sheet

Copyright,2025, 3M India Limited.All rights reserved. Copying and/or downloading of this information for the purpose of properly utilizing 3M products is allowed provided that: (1) the information is copied in full with no changes unless prior written agreement is obtained from 3M, and (2) neither the copy nor the original is resold or otherwise distributed with the intention of earning a profit thereon.

This product is defined as an article as per the Occupational Safety and Health Administration's Hazard Communication Standard (29 CFR 1910.1200(b)(6)(v)). As defined in this Standard:

'Article' means a manufactured item other than a fluid or particle: (i) which is formed to a specific shape or design during manufacture; (ii) which has end use function(s) dependent in whole or in part upon its shape or design during end use; and (iii) which under normal conditions of use does not release more than very small quantities, e.g., minute or trace amounts of a hazardous chemical, and which does not pose a physical hazard or health risk to employees.

When used under reasonable conditions and in accordance with the directions for use, the product should not present a health and safety hazard. However, use or processing of the product in a manner not in accordance with the directions for use may affect its performance and present potential health and safety hazards.

| Document group: | 38-9896-2  | Version number:  | 2.08       |
|-----------------|------------|------------------|------------|
| Issue Date:     | 25/07/2025 | Supersedes date: | 10/06/2025 |

This Safety Data Sheet has been prepared in accordance with the GHS guidelines & India Hazardous substances (Classification, Labeling & Packaging) Draft Rules 2011.

### **SECTION 1: Identification**

#### 1.1. Product identifier

Scotch-Brite Silver Sparks scrub pad

#### **Product Identification Numbers**

### **1.4. Emergency telephone number**

080-45543000 (Contact hours: 8:00 AM to 5:00 PM)

# **SECTION 2: Hazard identification**

Under MSIHC Rules, information is noted below on flammability, acute toxicity and explosivity relevant to this product. In line with international standards, information on other hazard classes and associated precautionary statements relevant to this product are included as well.

### 2.1. Classification of the substance or mixture

This product is considered to be an article and is exempt from GHS classification.

**2.2. Label elements Signal Word** Not applicable.

**Symbols** Not applicable

**Pictograms** Not applicable

### 2.3. Other hazards

None known.

# **SECTION 3: Composition/information on ingredients**

This material is a mixture.

| Ingredient   | CAS Nbr      | % by Wt |
|--|--------------|---------|
| Aluminium oxide  | 1344-28-1    | 15 - 40 |
| Water  | 7732-18-5    | 15 - 40 |
| Formaldehyde, oligomeric reaction products with phenol | 9003-35-4    | 10 - 30 |
| POLY(HEXAMETHYLENEADIPAMIDE)                           | 32131-17-2   | 10 - 30 |
| Nylon fibre  | Mixture      | 5 - 10  |
| Limestone  | 1317-65-3    | 3 - 7   |
| UNDISCLOSED COMPONENT                                  | Trade Secret | 3 - 7   |
| Polyurethane dispersion                                | Trade Secret | 1 - 5   |
| Polyethylene Glycol                                    | 25322-68-3   | 1 - 5   |
| Phenol   | 108-95-2     | < 0.5   |
| Formaldehyde   | 50-00-0      | < 0.5   |

# **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

### Inhalation

No need for first aid is anticipated. If symptoms develop, remove the affected person to fresh air. Get medical attention.

#### Skin contact

If exposed, wash with soap and water. If signs/symptoms develop, get medical attention.

#### Eye contact

If exposed, flush eyes with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms develop, get medical attention.

#### If swallowed

Do not induce vomiting. Rinse mouth. If you feel unwell, get medical attention.

#### 4.2. Most important symptoms and effects, both acute and delayed

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

# **4.3. Indication of any immediate medical attention and special treatment required** Not applicable.

### **SECTION 5: Fire-fighting measures**

#### 5.1. Suitable Extinguishing media

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

#### 5.2. Special hazards arising from the substance or mixture

None inherent in this product.

### Hazardous Decomposition or By-Products

| <u>Substance</u>    | <u>Condition</u>   |
|---------------------|--------------------|
| Amine compounds.    | During combustion. |
| Formaldehyde        | During combustion. |
| Carbon monoxide.    | During combustion. |
| Carbon dioxide.     | During combustion. |
| Hydrogen cyanide.   | During combustion. |
| Ammonia             | During combustion. |
| Oxides of nitrogen. | During combustion. |

### 5.3. Special protective actions for fire-fighters

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

### **SECTION 6: Accidental release measures**

# **6.1.** Personal precautions, protective equipment and emergency procedures Not applicable.

#### **6.2.** Environmental precautions

Not applicable.

### 6.3. Methods and material for containment and cleaning up

Not applicable.

### **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

This product is considered to be an article which does not release or otherwise result in exposure to a hazardous chemical under normal use conditions.

### 7.2. Conditions for safe storage including any incompatibilities

Not applicable.

# **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

### **Occupational exposure limits**

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient  | CAS Nbr    | Agency | Limit type                              | Additional comments  |
|---|------------|--------|---|--|
| Phenol  | 108-95-2   | ACGIH  | TWA:5 ppm                               | A4: Not class. as human<br>carcin, Danger of<br>cutaneous absorption |
| Particles (insoluble or poorly<br>soluble) not otherwise specified,<br>inhalable particles  | 1317-65-3  | ACGIH  | TWA(inhalable<br>particulates):10 mg/m3 |  |
| Particles (insoluble or poorly<br>soluble) not otherwise specified,<br>respirable particles | 1317-65-3  | ACGIH  | TWA(respirable particles):3 mg/m3       |  |
| Aluminum, insoluble compounds   | 1344-28-1  | ACGIH  | TWA(respirable fraction):1 mg/m3        | A4: Not class. as human carcin                                       |
| Particles (insoluble or poorly<br>soluble) not otherwise specified,<br>inhalable particles  | 1344-28-1  | ACGIH  | TWA(inhalable<br>particulates):10 mg/m3 |  |
| Particles (insoluble or poorly<br>soluble) not otherwise specified,<br>respirable particles | 1344-28-1  | ACGIH  | TWA(respirable particles):3 mg/m3       |  |
| Polyethylene Glycol   | 25322-68-3 | AIHA   | TWA:10 mg/m <sup>3</sup>                |  |
| Formaldehyde  | 50-00-0    | ACGIH  | TWA:0.1 ppm;STEL:0.3 ppm                | A1: Confirmed human<br>carcin.,<br>Dermal/Respiratory<br>Sensitizer  |

ACGIH : American Conference of Governmental Industrial Hygienists

AIHA : American Industrial Hygiene Association

CMRG : Chemical Manufacturer's Recommended Guidelines

TWA: Time-Weighted-Average

STEL: Short Term Exposure Limit

CEIL: Ceiling

### 8.2. Exposure controls

### 8.2.1. Engineering controls

No engineering controls required.

### **8.2.2.** Personal protective equipment (PPE)

### Eye/face protection

Eye protection not required.

### Skin/hand protection

PPE No chemical protective gloves are required.

### **Respiratory protection**

Respiratory protection is not required.

# **SECTION 9: Physical and chemical properties**

### 9.1. Information on basic physical and chemical properties

| Physical state                                    | Solid.             |
|---|--------------------|
| Specific Physical Form:                           | Non-Woven Material |
|   |                    |
| Color   | Green              |
| Odor  | Odourless          |
| Odour threshold                                   | Not applicable.    |
| рН  | Not applicable.    |
| Melting point/Freezing point: NA                  | Not applicable.    |
| Boiling point/Initial boiling point/Boiling range | Not applicable.    |
| Flash point                                       | Not applicable.    |
| Evaporation rate                                  | Not applicable.    |
| Flammability                                      | Not applicable.    |
|   |                    |
| Flammable Limits(LEL)                             | Not applicable.    |
| Flammable Limits(UEL)                             | Not applicable.    |
| Vapour pressure                                   | Not applicable.    |
| Relative Vapor Density                            | Not applicable.    |
| Density   | 60 - 72 kg/m3      |
| Relative density                                  | Not applicable.    |
| Water solubility                                  | Not applicable.    |
| Solubility- non-water                             | Not applicable.    |
| Partition coefficient: n-octanol/water            | Not applicable.    |
| Autoignition temperature                          | Not applicable.    |
| Decomposition temperature                         | Not applicable.    |
| Kinematic Viscosity                               | Not applicable.    |
| Volatile organic compounds (VOC)                  | No data available. |
| Percent volatile                                  | No data available. |
| VOC less H2O & exempt solvents                    | No data available. |
|   |                    |

Particle Characteristics

Not applicable.

# **SECTION 10: Stability and reactivity**

### 10.1 Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section

# 10.2 Chemical stability

Stable.

# 10.3 Possibility of hazardous reactions

Hazardous polymerisation will not occur.

### 10.4 Conditions to avoid

Sparks and/or flames.

### **10.5 Incompatible materials**

None known.

### **10.6 Hazardous decomposition products**

#### <u>Substance</u>

None known.

### Condition

Refer to section 5.2 for hazardous decomposition products during combustion.

Under recommended usage conditions, hazardous decomposition products are not expected. Hazardous decomposition products may occur as a result of oxidation, heating, or reaction with another material.

### **SECTION 11: Toxicological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labelling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

**11.1 Information on Toxicological effects** 

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

**Inhalation** No health effects are expected.

Skin contact No health effects are expected.

**Eye contact** No health effects are expected.

**Ingestion** No health effects are expected.

#### Additional information:

This product, when used under reasonable conditions and in accordance with the 3M directions for use, should not present a health hazard. However, use or processing of the product in a manner not in accordance with the product's directions for use may affect the performance of the product and may present potential health and safety hazards

#### **Toxicological Data**

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

### Acute Toxicity

| Name   | Route                                 | Species          | Value  |
|--|---------------------------------------|------------------|--|

| Formaldehyde   | Guinea                 | Sensitising    |
| Phenol   | Guinea                 | Not classified |

pig

### **Respiratory Sensitisation**

| Name   | Species | Value  |
|--|---------|--|
| Formaldehyde, oligomeric reaction products with phenol | Human   | Not classified   |
| Formaldehyde   | Human   | Some positive data exist, but the data are not sufficient for classification |

### Germ Cell Mutagenicity

| Name                | Route    | Value  |
|---------------------|----------|--|
|                     |          |  |
| Aluminium oxide     | In Vitro | Not mutagenic  |
| Polyethylene Glycol | In Vitro | Not mutagenic  |
| Polyethylene Glycol | In vivo  | Not mutagenic  |
| Formaldehyde        | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Formaldehyde        | In vivo  | Mutagenic  |
| Phenol              | In Vitro | Some positive data exist, but the data are not sufficient for classification |
| Phenol              | In vivo  | Some positive data exist, but the data are not sufficient for classification |

### Carcinogenicity

| Name                | Route             | Species                | Value  |
|---------------------|-------------------|------------------------|--|
| Aluminium oxide     | Inhalation        | Rat                    | Not carcinogenic   |
| Polyethylene Glycol | Ingestion         | Rat                    | Not carcinogenic   |
| Formaldehyde        | Not<br>specified. | Human<br>and<br>animal | Carcinogenic.  |
| Phenol              | Dermal            | Mouse                  | Some positive data exist, but the data are not sufficient for classification |
| Phenol              | Ingestion         | Rat                    | Some positive data exist, but the data are not sufficient for classification |

### **Reproductive Toxicity**

### **Reproductive and/or Developmental Effects**

| Name                | Route          | Value  | Species | Test result                         | Exposure<br>Duration               |
|---------------------|----------------|--|---------|-------------------------------------|------------------------------------|
| Limestone           | Ingestion      | Not classified for development                     | Rat     | NOAEL 625<br>mg/kg/day              | premating &<br>during<br>gestation |

### **Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

# **SECTION 12: Ecological information**

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. Additional information leading to material classification in Section 2 is available upon request. In addition, environmental fate and effects data on ingredients may not be reflected in this section because an ingredient is present below the threshold for labelling, an ingredient is not expected to be available for exposure, or the data is considered not relevant to the material as a whole.

12.1. Toxicity

### Acute aquatic hazard:

Not acutely toxic to aquatic life by GHS criteria.

### Chronic aquatic hazard:

Not chronically toxic to aquatic life by GHS criteria.

No product test data available.

| Material  | CAS Nbr    | Organism         | Туре  | Exposure | Test endpoint | Test result |

| Formaldehyde  | 50-00-0    | Experimental<br>Bioconcentration                            |          | Log Kow                | 0.35        |          |
| Phenol  | 108-95-2   | Experimental<br>Bioconcentration                            |          | Log Kow                | 1.47        |          |

### 12.4. Mobility in soil

Please contact manufacturer for more details

### 12.5 Other Adverse effects

No information available.

# **SECTION 13: Disposal considerations**

### 13.1. Disposal methods

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Prior to disposal, consult all applicable authorities and regulations to insure proper classification. Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. If no other disposal options are available, waste product may be placed in a landfill properly designed for industrial waste.

# **SECTION 14: Transport Information**

Not hazardous for transportation.

### Air Transport (IATA)Regulations

UN No Not applicable Proper Shipping Name Not applicable Hazard Classs/Division Not applicable Subsidiary Risk Not applicable Packing Group: Not applicable

Marine Transport (IMDG) UN No Not applicable Proper Shipping Name Not applicable Hazard Classs/Division Not applicable Subsidiary Risk Not applicable Packing Group: Not applicable Environmental Hazards: Not applicable

# **SECTION 15: Regulatory information**

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **Global inventory status**

Contact 3M for more information.

### Applicable Environmental, Health and Safety Regulations

Not applicable

The following ingredients are listed as hazardous on Part II of Schedule I of the India Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) rules Formaldehyde Phenol

The following ingredients are classified as hazardous based on the criteria listed under Part I of Schedule I of the India Manufacture, Storage and Import of Hazardous Chemicals (MSIHC) rules: The product is non-hazardous as per MSIHC regulations.

### **SECTION 16: Other information**

#### NFPA Hazard Classification

Health: 0 Flammability: 1 Instability: 0 Special Hazards: None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

### **Revision information:**

Section 1: Product identification numbers information was modified.

DISCLAIMER: The information in this Safety Data Sheet (SDS) is based on our experience and is correct to the best of our knowledge at the date of publication, but we do not accept any liability for any loss, damage or injury resulting from its use (except as required by law). The information may not be valid for any use not referred to in this SDS or use of the product in combination with other materials. For these reasons, it is important that customers carry out their own evaluation to satisfy themselves as to the suitability of the product for their own intended applications. In addition, this SDS is being provided to convey health and safety information. If you are the importer of record of this product into India, you are responsible to comply with all applicable regulatory requirements, including, but not limited to, product registrations/notifications, substance volume tracking, and potential substance registration/notification.
