### SECTION 1: Identification

#### 1.1. Product identifier

3M™ Marine Grade Silicone Sealant - Clear, PN 08016, 08019, 08029

##### Product Identification Numbers

| ID Number      | UPC              | ID Number      | UPC              |
|----------------|------------------|----------------|------------------|
| 60-9800-3164-9 | 00-51135-08016-0 | 60-9800-3166-4 | 00-51135-08019-1 |
| 60-9800-3168-0 | 00-51135-08029-0 | 60-9800-4278-6 |                  |
| 60-9800-4280-2 | 00-51135-08019-1 | 60-9800-4282-8 | 00-51135-08029-0 |
| 60-9800-4309-9 | 00-51135-08019-1 | 62-8029-5235-8 |                  |
| 70-0064-1001-6 | 00-51135-08019-1 |                |                  |

7000120477, 7000120480, 7010299423

#### 1.2. Recommended use and restrictions on use

##### Recommended use

Marine Mildew Resistant Silicone, Sealant

#### 1.3. Supplier's details

|                      |                                         |
|----------------------|-----------------------------------------|
| <b>MANUFACTURER:</b> | 3M                                      |
| <b>DIVISION:</b>     | Industrial Adhesives and Tapes Division |
| <b>ADDRESS:</b>      | 3M Center, St. Paul, MN 55144-1000, USA |
| <b>Telephone:</b>    | 1-888-3M HELPS (1-888-364-3577)         |

#### 1.4. Emergency telephone number

1-800-364-3577 or (651) 737-6501 (24 hours)

### SECTION 2: Hazard identification

#### 2.1. Hazard classification

Not classified as hazardous according to OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### 2.2. Label elements

**Signal word**

Not applicable.

**Symbols**

Not applicable

**Pictograms**

Not applicable

**SECTION 3: Composition/information on ingredients**

| <b>Ingredient</b>                                  | <b>C.A.S. No.</b> | <b>% by Wt</b> |
|----------------------------------------------------|-------------------|----------------|
| Siloxanes And Silicones, DI-ME, Hydroxy-Terminated | 70131-67-8        | 70 - 90        |
| Silica                                             | 7631-86-9         | 5 - 10         |
| Siloxanes and Silicones, di-Me                     | 63148-62-9        | 1 - 5          |
| Dodecamethylcyclohexasiloxane                      | 540-97-6          | < 0.2          |
| Octamethylcyclotetrasiloxane                       | 556-67-2          | < 0.03         |

**SECTION 4: First aid measures****4.1. Description of first aid measures****Inhalation:**

No need for first aid is anticipated. If symptoms develop, remove the affected person to fresh air. Get medical attention.

**Skin Contact:**

If exposed, wash with soap and water. If signs/symptoms develop, get medical attention.

**Eye Contact:**

No need for first aid is anticipated. If signs/symptoms persist, get medical attention.

**If Swallowed:**

Do not induce vomiting. Rinse mouth. If you feel unwell, get medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

No critical symptoms or effects. See Section 11.1, information on toxicological effects.

**4.3. Indication of any immediate medical attention and special treatment required**

Not applicable

**SECTION 5: Fire-fighting measures****5.1. Suitable extinguishing media**

In case of fire: Use a fire fighting agent suitable for ordinary combustible material such as water or foam to extinguish.

**5.2. Special hazards arising from the substance or mixture**

None inherent in this product.

**Hazardous Decomposition or By-Products****Substance**

Formaldehyde

Carbon monoxide

Carbon dioxide

**Condition**

During Combustion

During Combustion

During Combustion

**5.3. Special protective actions for fire-fighters**

Wear full protective clothing, including helmet, self-contained, positive pressure or pressure demand breathing apparatus, bunker coat and pants, bands around arms, waist and legs, face mask, and protective covering for exposed areas of the head.

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapors, in accordance with good industrial hygiene practice. Use personal protective equipment based on the results of an exposure assessment. Refer to Section 8 for PPE recommendations. If anticipated exposure resulting from an accidental release exceeds the protective capabilities of the PPE listed in Section 8, or are unknown, select PPE that offers an appropriate level of protection. Consider the physical and chemical hazards of the material when doing so. Examples of PPE ensembles for emergency response could include wearing bunker gear for a release of flammable material; wearing chemical protective clothing if the spilled material is a corrosive, a sensitizer, a significant dermal irritant, or can be absorbed through the skin; or donning a positive pressure supplied-air respirator for chemicals with inhalation hazards. For information regarding physical and health hazards, refer to sections 2 and 11 of the SDS.

### 6.2. Environmental precautions

Avoid release to the environment.

### 6.3. Methods and material for containment and cleaning up

Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Avoid breathing of vapors created during cure cycle. Keep out of reach of children. Avoid release to the environment. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.)

### 7.2. Conditions for safe storage including any incompatibilities

Store away from oxidizing agents.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

#### Occupational exposure limits

If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

| Ingredient                                                                            | C.A.S. No. | Agency | Limit type                                                                                                                       | Additional Comments |
|---------------------------------------------------------------------------------------|------------|--------|----------------------------------------------------------------------------------------------------------------------------------|---------------------|
| Octamethylcyclotetrasiloxane                                                          | 556-67-2   | AIHA   | TWA:10 ppm                                                                                                                       |                     |
| Inert or Nuisance Dust,<br>Respirable fraction                                        | 7631-86-9  | OSHA   | TWA(as total dust):50 millions of particles/cu. ft.(15 mg/m3);TWA(respirable fraction):15 millions of particles/cu. ft.(5 mg/m3) |                     |
| Particles (insoluble or poorly soluble) not otherwise specified, inhalable particles  | 7631-86-9  | ACGIH  | TWA(inhalable particulates):10 mg/m3                                                                                             |                     |
| Particles (insoluble or poorly soluble) not otherwise specified, respirable particles | 7631-86-9  | ACGIH  | TWA(respirable particles):3 mg/m3                                                                                                |                     |

ACGIH : American Conference of Governmental Industrial Hygienists

AIHA : American Industrial Hygiene Association  
 CMRG : Chemical Manufacturer's Recommended Guidelines  
 OSHA : United States Department of Labor - Occupational Safety and Health Administration  
 TWA: Time-Weighted-Average  
 STEL: Short Term Exposure Limit  
 CEIL: Ceiling

## 8.2. Exposure controls

### 8.2.1. Engineering controls

Provide ventilated enclosure for curing. Curing enclosures must be exhausted to outdoors or to a suitable emission control device. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapors/spray. If ventilation is not adequate, use respiratory protection equipment.

### 8.2.2. Personal protective equipment (PPE)

#### Eye/face protection

None required.

#### Skin/hand protection

No chemical protective gloves are required.

#### Respiratory protection

None required.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

|                                         |                                     |
|-----------------------------------------|-------------------------------------|

*Not Applicable*

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

This material may be reactive with certain agents under certain conditions - see the remaining headings in this section.

### 10.2. Chemical stability

Stable.

### 10.3. Possibility of hazardous reactions

Hazardous polymerization will not occur.

### 10.4. Conditions to avoid

Not determined

### 10.5. Incompatible materials

Strong oxidizing agents

### 10.6. Hazardous decomposition products

| <u>Substance</u> | <u>Condition</u> |
|------------------|------------------|
| None known.      |                  |

Refer to section 5.2 for hazardous decomposition products during combustion.

## SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

### 11.1. Information on Toxicological effects

#### Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

#### Inhalation:

No health effects are expected.

#### Skin Contact:

Contact with the skin during product use is not expected to result in significant irritation.

#### Eye Contact:

Contact with the eyes during product use is not expected to result in significant irritation.

#### Ingestion:

No known health effects.

#### Toxicological Data

If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

### Acute Toxicity

| Name                                               | Route                          | Species                 | Value                                          |
|----------------------------------------------------|--------------------------------|-------------------------|------------------------------------------------|
| Overall product                                    | Ingestion                      |                         | No data available; calculated ATE >5,000 mg/kg |

| Octamethylcyclotetrasiloxane                       | Ingestion                      | Rat                     | LD50 > 4,800 mg/kg                             |

ATE = acute toxicity estimate

### Skin Corrosion/Irritation

| Name                                               | Species          | Value                     |
|----------------------------------------------------|------------------|---------------------------|
| Siloxanes And Silicones, DI-ME, Hydroxy-Terminated | Rabbit           | No significant irritation |
| Silica                                             | Rabbit           | No significant irritation |
| Siloxanes and Silicones, di-Me                     | Human and animal | No significant irritation |
| Dodecamethylcyclotetrasiloxane                     | Rabbit           | No significant irritation |
| Octamethylcyclotetrasiloxane                       | Rabbit           | No significant irritation |

### Serious Eye Damage/Irritation

| Name                                               | Species | Value                     |
|----------------------------------------------------|---------|---------------------------|
| Siloxanes And Silicones, DI-ME, Hydroxy-Terminated | Rabbit  | Mild irritant             |
| Silica                                             | Rabbit  | No significant irritation |
| Siloxanes and Silicones, di-Me                     | Rabbit  | No significant irritation |
| Dodecamethylcyclotetrasiloxane                     | Rabbit  | No significant irritation |
| Octamethylcyclotetrasiloxane                       | Rabbit  | No significant irritation |

### Skin Sensitization

| Name                                               | Species          | Value          |
|----------------------------------------------------|------------------|----------------|
| Siloxanes And Silicones, DI-ME, Hydroxy-Terminated | Guinea pig       | Not classified |
| Silica                                             | Human and animal | Not classified |
| Siloxanes and Silicones, di-Me                     | Human and animal | Not classified |
| Dodecamethylcyclotetrasiloxane                     | Guinea pig       | Not classified |
| Octamethylcyclotetrasiloxane                       | Human and animal | Not classified |

**Respiratory Sensitization**

For the component/components, either no data are currently available or the data are not sufficient for classification.

**Germ Cell Mutagenicity**

| Name                                               | Route    | Value                                                                        |
|----------------------------------------------------|----------|------------------------------------------------------------------------------|
| Siloxanes And Silicones, DI-ME, Hydroxy-Terminated | In Vitro | Not mutagenic                                                                |
| Silica                                             | In Vitro | Not mutagenic                                                                |
| Siloxanes and Silicones, di-Me                     | In Vitro | Not mutagenic                                                                |
| Siloxanes and Silicones, di-Me                     | In vivo  | Not mutagenic                                                                |
| Dodecamethylcyclohexasiloxane                      | In Vitro | Not mutagenic                                                                |
| Dodecamethylcyclohexasiloxane                      | In vivo  | Not mutagenic                                                                |
| Octamethylcyclotetrasiloxane                       | In vivo  | Not mutagenic                                                                |
| Octamethylcyclotetrasiloxane                       | In Vitro | Some positive data exist, but the data are not sufficient for classification |

**Carcinogenicity**

| Name                           | Route         | Species | Value                                                                        |
|--------------------------------|---------------|---------|------------------------------------------------------------------------------|
| Silica                         | Not Specified | Mouse   | Some positive data exist, but the data are not sufficient for classification |
| Siloxanes and Silicones, di-Me | Dermal        | Mouse   | Not carcinogenic                                                             |
| Siloxanes and Silicones, di-Me | Ingestion     | Mouse   | Not carcinogenic                                                             |
| Octamethylcyclotetrasiloxane   | Inhalation    | Rat     | Some positive data exist, but the data are not sufficient for classification |

**Reproductive Toxicity****Reproductive and/or Developmental Effects**

| Name                           | Route      | Value                                  | Species                 | Test Result           | Exposure Duration    |
|--------------------------------|------------|----------------------------------------|-------------------------|-----------------------|----------------------|
| Silica                         | Ingestion  | Not classified for female reproduction | Rat                     | NOAEL 509 mg/kg/day   | 1 generation         |
| Silica                         | Ingestion  | Not classified for male reproduction   | Rat                     | NOAEL 497 mg/kg/day   | 1 generation         |
| Silica                         | Ingestion  | Not classified for development         | Rat                     | NOAEL 1,350 mg/kg/day | during organogenesis |
| Siloxanes and Silicones, di-Me | Ingestion  | Not classified for development         | Rat                     | NOAEL 3,800 mg/kg/day | during organogenesis |
| Siloxanes and Silicones, di-Me | Dermal     | Not classified for development         | Rabbit                  | NOAEL 1,000 mg/kg/day | during organogenesis |
| Dodecamethylcyclohexasiloxane  | Ingestion  | Not classified for female reproduction | Rat                     | NOAEL 1,000 mg/kg/day | 2 generation         |
| Dodecamethylcyclohexasiloxane  | Ingestion  | Not classified for male reproduction   | Rat                     | NOAEL 1,000 mg/kg/day | 2 generation         |
| Dodecamethylcyclohexasiloxane  | Ingestion  | Not classified for development         | Multiple animal species | NOAEL 1,000 mg/kg/day | during gestation     |
| Octamethylcyclotetrasiloxane   | Inhalation | Not classified for male reproduction   | Rat                     | NOAEL 8.5 mg/l        | 2 generation         |
| Octamethylcyclotetrasiloxane   | Inhalation | Not classified for development         | Rabbit                  | NOAEL 6 mg/l          | during organogenesis |
| Octamethylcyclotetrasiloxane   | Ingestion  | Not classified for development         | Rabbit                  | NOAEL 100 mg/kg       | during organogenesis |
| Octamethylcyclotetrasiloxane   | Inhalation | Toxic to female reproduction           | Rat                     | NOAEL 3.6 mg/l        | 2 generation         |

**Target Organ(s)**

**Specific Target Organ Toxicity - single exposure**

| Name                          | Route      | Target Organ(s)        | Value                                                                        | Species | Test Result         | Exposure Duration |
|-------------------------------|------------|------------------------|------------------------------------------------------------------------------|---------|---------------------|-------------------|
| Dodecamethylcyclhexasil oxane | Inhalation | respiratory irritation | Some positive data exist, but the data are not sufficient for classification | Rat     | NOAEL not available |                   |

**Specific Target Organ Toxicity - repeated exposure**

| Name                           | Route      | Target Organ(s)        | Value          | Species                 | Test Result           | Exposure Duration     |
|--------------------------------|------------|------------------------|----------------|-------------------------|-----------------------|-----------------------|
| Silica                         | Inhalation | respiratory system     | Not classified | Human                   | NOAEL Not available   | occupational exposure |
| Silica                         | Inhalation | silicosis              | Not classified | Human                   | NOAEL Not available   | occupational exposure |
| Siloxanes and Silicones, di-Me | Ingestion  | eyes                   | Not classified | Rat                     | NOAEL 10% in the diet | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | respiratory system     | Not classified | Rat                     | NOAEL 1% in the diet  | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | gastrointestinal tract | Not classified | Multiple animal species | NOAEL 10% in the diet | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | hematopoietic system   | Not classified | Rat                     | NOAEL 10% in the diet | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | heart                  | Not classified | Rat                     | NOAEL 1% in the diet  | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | liver                  | Not classified | Rat                     | NOAEL 1% in the diet  | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | kidney and/or bladder  | Not classified | Rat                     | NOAEL 1% in the diet  | 90 days               |
| Siloxanes and Silicones, di-Me | Ingestion  | vascular system        | Not classified | Rat                     | NOAEL 1% in the diet  | 90 days               |
| Dodecamethylcyclhexasil oxane  | Inhalation | liver                  | Not classified | Rat                     | NOAEL 0.546 mg/l      | 90 days               |
| Dodecamethylcyclhexasil oxane  | Inhalation | respiratory system     | Not classified | Rat                     | NOAEL 0.018 mg/l      | 90 days               |
| Dodecamethylcyclhexasil oxane  | Inhalation | hematopoietic system   | Not classified | Rat                     | NOAEL 0.546 mg/l      | 90 days               |
| Dodecamethylcyclhexasil oxane  | Inhalation | eyes                   | Not classified | Rat                     | NOAEL 0.546 mg/l      | 90 days               |
| Dodecamethylcyclhexasil oxane  | Ingestion  | endocrine system       | Not classified | Rat                     | NOAEL 1,000 mg/kg/day | 28 days               |
| Dodecamethylcyclhexasil oxane  | Ingestion  | liver                  | Not classified | Rat                     | NOAEL 1,000 mg/kg/day | 28 days               |
| Dodecamethylcyclhexasil oxane  | Ingestion  | hematopoietic system   | Not classified | Rat                     | NOAEL 1,000 mg/kg/day | 28 days               |
| Dodecamethylcyclhexasil oxane  | Ingestion  | nervous system         | Not classified | Rat                     | NOAEL 1,000 mg/kg/day | 28 days               |
| Dodecamethylcyclhexasil oxane  | Ingestion  | kidney and/or bladder  | Not classified | Rat                     | NOAEL 1,000 mg/kg/day | 28 days               |
| Dodecamethylcyclhexasil oxane  | Ingestion  | respiratory system     | Not classified | Rat                     | NOAEL 1,000 mg/kg/day | 28 days               |
| Octamethylcyclotetrasiloxane   | Dermal     | hematopoietic system   | Not classified | Rabbit                  | NOAEL 960 mg/kg/day   | 3 weeks               |
| Octamethylcyclotetrasiloxane   | Inhalation | liver                  | Not classified | Rat                     | NOAEL 8.5 mg/l        | 13 weeks              |
| Octamethylcyclotetrasiloxane   | Inhalation | endocrine system       | Not classified | Rat                     | NOAEL 8.5 mg/l        | 2 generation          |
| Octamethylcyclotetrasiloxane   | Inhalation | immune system          | Not classified | Rat                     | NOAEL 8.5 mg/l        | 2 generation          |
| Octamethylcyclotetrasiloxane   | Inhalation | kidney and/or          | Not classified | Rat                     | NOAEL 8.5             | 2 generation          |

|                              |            |                      |                |     |                       |          |
|------------------------------|------------|----------------------|----------------|-----|-----------------------|----------|
| ne                           |            | bladder              |                |     | mg/l                  |          |
| Octamethylcyclotetrasiloxane | Inhalation | hematopoietic system | Not classified | Rat | NOAEL 8.5 mg/l        | 13 weeks |
| Octamethylcyclotetrasiloxane | Ingestion  | liver                | Not classified | Rat | NOAEL 1,600 mg/kg/day | 2 weeks  |

**Aspiration Hazard**

For the component/components, either no data are currently available or the data are not sufficient for classification.

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

**SECTION 12: Ecological information****Ecotoxicological information**

Please contact the address or phone number listed on the first page of the SDS for additional ecotoxicological information on this material and/or its components.

**Chemical fate information**

Please contact the address or phone number listed on the first page of the SDS for additional chemical fate information on this material and/or its components.

**SECTION 13: Disposal considerations****13.1. Disposal methods**

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

Dispose of waste product in a permitted industrial waste facility. As a disposal alternative, incinerate in a permitted waste incineration facility. Proper destruction may require the use of additional fuel during incineration processes. Empty drums/barrels/containers used for transporting and handling hazardous chemicals (chemical substances/mixtures/preparations classified as Hazardous as per applicable regulations) shall be considered, stored, treated & disposed of as hazardous wastes unless otherwise defined by applicable waste regulations. Consult with the respective regulating authorities to determine the available treatment and disposal facilities.

EPA Hazardous Waste Number (RCRA): Not regulated

**SECTION 14: Transport Information**

For Transport Information, please visit <http://3M.com/Transportinfo> or call 1-800-364-3577 or 651-737-6501.

**SECTION 15: Regulatory information****15.1. US Federal Regulations**

Contact 3M for more information.

**EPCRA 311/312 Hazard Classifications:****Physical Hazards**

Not Applicable.

**Health Hazards**

Not Applicable.

## 15.2. State Regulations

Contact 3M for more information.

## 15.3. Chemical Inventories

The components of this product are in compliance with the chemical notification requirements of TSCA. All required components of this product are listed on the active portion of the TSCA Inventory.

Contact 3M for more information.

## 15.4. International Regulations

Contact 3M for more information.

This SDS has been prepared to meet the U.S. OSHA Hazard Communication Standard, 29 CFR 1910.1200.

## SECTION 16: Other information

### NFPA Hazard Classification

**Health:** 0 **Flammability:** 1 **Instability:** 0 **Special Hazards:** None

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

**Document Group:** 08-2055-5  
**Issue Date:** 06/30/26

**Version Number:** 12.01  
**Supersedes Date:** 04/19/24
